Michels.ch wishes Happy Holiday and a very hot 2012

Since 1985 you – our friends and family – get the most updated picture of the family Michel, to get an idea how we actually look at the time. At an early stage the idea of the ultimate picture grew: A burning Christmas Tree with a shocked family. Over 25 years the idea was with us and returned as annual Running Gag before the holiday season .

Now we finally did it. Without thinking of finance, banking or currency crisis or even at politics, but maybe as reminder :

“if you play with fire, you might burn your fingers. Or the Christmas tree ”
