

The colours of the family in the age of the cloud

When the sun's rays butt on the water droplets in a cloud, the pure white of sunlight explodes - and shows its hidden facets. We see this in the form of the rainbow.

Now - as told years ago by a little prince - the essential is invisible. We only see clearly with our hearts. Therefore, for our family picture of the year we dressed in rainbow colours. Each and every one of us in one colour.

As one facet of what you can see with the heart : what holds us together is the family.

Also from heart, our wishes for a Merry Christmas and all the best to come in the New Year 2015 to all of you that you are connected to us.
