

If Lilou would not...

...stand so easily on Leas hand, nobody would realize it's a photoshop job. However, anyone who claims that this is a fake image, needs to reconsider: not every wrong picture is a false picture ... Finally, we the Michels stand for and on each other as passionate family people ...

In this sense we wish you all a wonderful Christmas, a very happy New Year and good stance for 2018

We bow to the creator of this work, our friend Markus Mallaun. With infinite dedication and tremendous patience also this year he managed to let the Michels-clan shine
